"Gem is gentle and kind in her approach and was very committed to me getting a breakthrough. After my experience with her I feel free, like I've been reborn again on a different level."

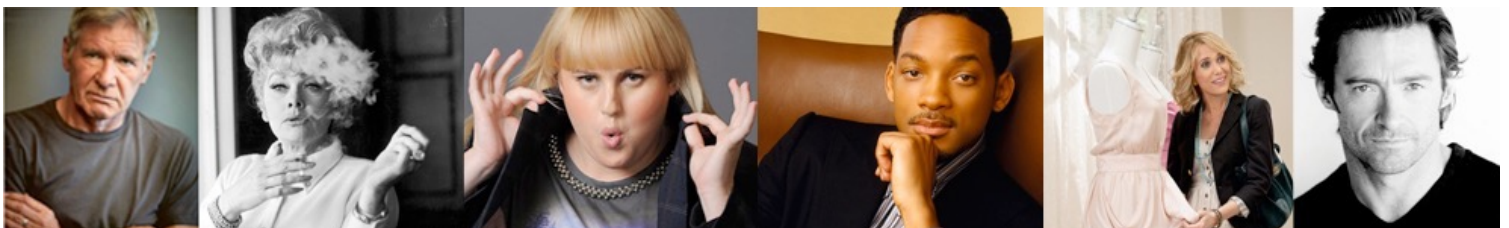

- Hayley Milano, Singer/Actress, Sydney

"Recently, I received an audition for my dream role. My excitement very quickly turned to a crazed bunch of nerves and I found myself going down a spiral of self-defeat before I even started! I asked Gemma to coach me for the audition. Her technique is direct and calm and she helped me empty my head of all the negativity and fear. I did the audition, clear and powerful, and made it to the final callbacks. And although I didn't get the role this time, the casting director, who is not known for giving much feedback, wrote a lengthy email to my agent saying how great I was in the audition, areas I could improve on, and that they would love to see me again in the near future. With her coaching I was able to perform at my best and really make an impact. And whatever you learn from her you can use forever in your life."
